Frozen Sections of a Child: Fifteen Drawings Form Nature (Classic Reprint)

By Thomas Dwight

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Frozen Sections of a Child: Fifteen Drawings Form Nature The sections that form the basis of this little work were made, with many others, during the winter of 1880-81, to illustrate my lectures at the Harvard Medical School. The sections were so instructive, and the series so perfect, that I was very anxious to have them drawn and published. The subject was the body of a girl, said to be three years old. The length was thirty-three inches. At this age the proportions of the body, and of the organs, are no longer those of the infant, and not yet those of the adult. The anatomy of this age has received little attention, and I hope that this work may therefore be of use. It will serve, also, for the study of the adult relations, as the peculiarities due to the age of the subject are carefully noticed in the text. I have endeavored to call attention to the most important inferences to be drawn from the plates, and have mentioned, incidentally, many points of...
