

Generation and Degeneration: Tropes of Reproduction in Literature and History from Antiquity Through Early Modern Europe

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

GENERATION AND DEGENERATION: TROPES OF REPRODUCTION IN LITERATURE AND HISTORY FROM ANTIQUITY THROUGH EARLY MODERN EUROPE

DOWNLOAD PDF

Duke University Press. Paperback. Book Condition: new. BRAND NEW, Generation and Degeneration: Tropes of Reproduction in Literature and History from Antiquity Through Early Modern Europe, Kevin Brownlee, Valeria Finucci, This distinctive collection explores the construction of genealogies - in both the biological sense of procreation and the metaphorical sense of heritage and cultural patrimony. Focusing specifically on the discourses that inform such genealogies, "Generation and Degeneration" moves from Greco-Roman times to the recent past to retrace generational fantasies and discords in a variety of related contexts, from the medical to the theological, and from the literary to the historical. The discourses on reproduction, biology, degeneration, legacy, and lineage that this book broaches, not only bring to the forefront concepts of sexual identity and gender politics but also show how they were culturally constructed and reconstructed through the centuries by medicine, philosophy, the visual arts, law, religion, and literature. Contributors reflect on topics as varied as what makes men manly to who is Christ's father, from what kinds of erotic practices went on among women in sixteenth-century seraglios to how men's haemorrhoids can be variously labelled. They scrutinise stories of menstruating males and early writings on the presumed inferiority of female bodily functions. Others investigate a psychomorphology of the clitoris that challenges Freud's account of lesbianism as an infantile stage of sexual development and such topics as the geographical origins of medicine and the materialisation of genealogy in the presence of Renaissance theatrical ghosts. This collection will engage those in English, comparative, Italian, Spanish, and French studies, as well as in history, history of medicine, and ancient and early modern religious studies.
