This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

Mittal Publications, New Delhi, 1990. N.A. Book Condition: New. Xii+213pp Nehru needs no introduction to Indians. To those who had seen him he was an ideal to follow, to those who didn't he was a man with many dimensions. However, when a man is alive a certain amount of emotion colours our vision and perhaps influences critical evaluation, not necessarily negate. With the passage of time comes certain amount to detachment which not only give a one an opportunity to evaluate but also a deeper understanding of the significance of his acts and deeds. The centenary of Nehru coming after nearly 25 years of his passing away has probably given us this opportunity to try and evaluate him without any emotion. This volume thus makes an attempt to present a critical evaluation of the words, thoughts and deeds of Nehru in terms of their significance in Indian history, economy, polity, culture and philosophy. Nehru as a person has become an Institution whose reverberations were felt not only by the contemporary society but also continued to be experienced years later. The present volume is an attempt at looking at Nehru in the light of our contemporary wisdom and experience.
