Reviews

This written publication is fantastic. This can be for anyone who statte that there had not been a well worth reading through. I realized this pdf from my i and dad recommended this publication to discover.

(Maye Schoen)

MISSOURI S FOREST RESROUCES IN 2005

Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.The U.S. Forest Service, Northern Research Station s Forest Inventory and Analysis program is continuing its annual inventory of Missouri s forest resources. This report presents estimates of area, volume, and biomass using data for 2005, and growth, removals, and mortality using data for the most recent remeasurement period. Estimates from this inventory showed a total of 14.7 million acres of forest land in the state. The estimate of total net volume of live trees on forest land was 18.8 billion cubic feet. Higher than average mortality values for certain oak species are likely due to the increased age of the state s forests, as well from a droughtinduced oak decline over much of the past 10 years.
